

AdoraBell

Mathias Seuret, Nora Gourmelon

More students than tutors

Queuing System

We want to...

- Take time to answer questions properly
- Take time to evaluate submissions properly
- Minimize students' waiting time

We will use **AdoraBell**

- FIFO
- Web-based
- Based on Jitsi

Live demo now.

Offline Demo

Our AdoraBell server:

lme41.informatik.uni-erlangen.de:X

VPN not required anymore

Where X is:

- Monday: 8081
- Tuesday: 8082
- Wednesday: 8083
- Thursday: 8084
- Friday: 8085

Example: today it is

lme41.informatik.uni-erlangen.de:8084

Share the link with your group members

Offline Demo

Use your own credentials

! only one person per group does it !

The link is the same for all group members.

You will get the credentials in a few days from now.

Additional Thingies

Groups typically distribute work. However...

- All group members must understand the exercises
- Oral submission deadline: first session after the StudOn deadline
- **Discuss together before submission**
- To pass, all of you **must** be able to explain at least partially your solution
- If some group members cannot answer, then **the group** gets no points

If needed, you can use the CIP-Pool. Bring your own headset and microphone.

$(\text{Number of students}) / (\text{number of tutors}) > 1$

We do our best, but there will be waiting times. Thank you for your patience.

Other Additional Thingies

Some students decided to create discussion groups:

<https://chat.whatsapp.com/LFhJqdBIY6d3SDGnJbUvvc>

[https://signal.group/
#CjQKIC28L5G_rM4Rpfnt2m_9nmT2ffmdLoHbh02xNtiaTKfYEhAPBgs-
JV_PRzI3VDd9G4vO](https://signal.group/#CjQKIC28L5G_rM4Rpfnt2m_9nmT2ffmdLoHbh02xNtiaTKfYEhAPBgs-JV_PRzI3VDd9G4vO)

https://chat.fsi.cs.fau.de/channel/intro_ML

The thing we shouldn't have to say, but...

Error messages are there to help. If you get one, read it.

One last thing

Any question?
